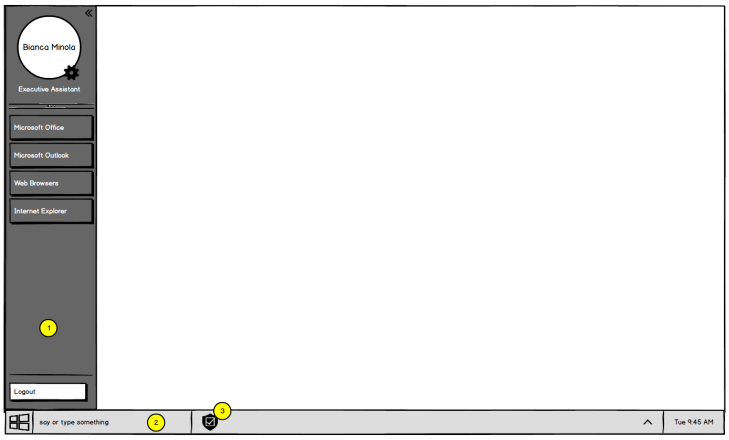
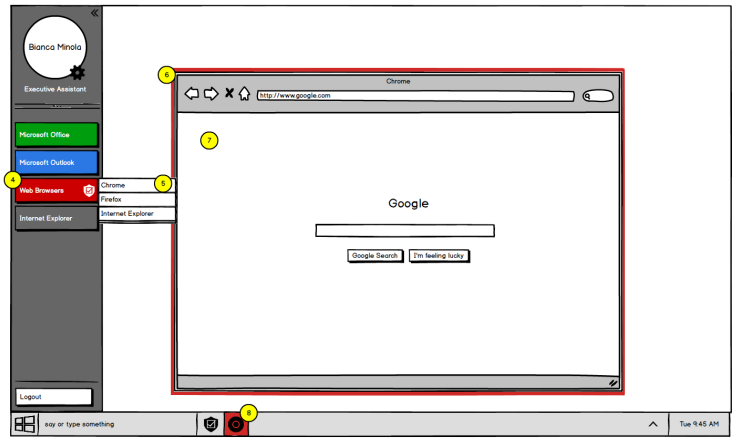
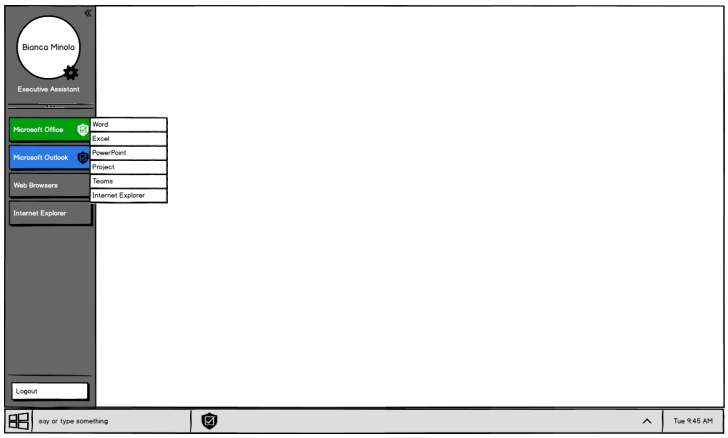
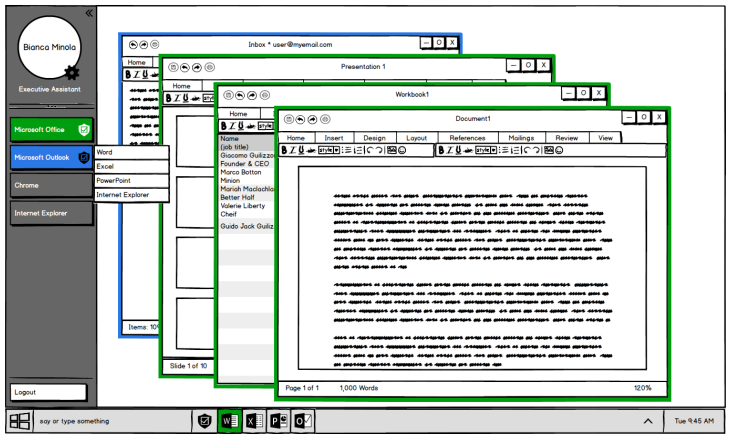
User's Savior Desktop: Stage 1





User's Savior Desktop: Stage X





User Savior Desktop: Stage 1

1. The user's Savior Desktop once it has been launched.
2. The user's Windows OS taskbar. NOT part of Savior. This taskbar is for visual reference only.
3. The Savior icon will appear in the Windows taskbar to show it has been launched.
4. If a virtue has more than one application, the user will be able to access the applications directly using the submenu.
5. The list of available apps in the virtue.
6. After a virtue has been launched, all available virtues will be available in the dropdown in floating taskbar at the top of the screen
7. A VM hosting a Chrome browser.
8. The active application will show up in the taskbar. If the window is in front (in-focus) the background of the icon will be the color representing the virtue.

User's Savior Desktop: Stage X

TBD.
