Administrator Workbench: Manage Users

Admin Workbench: Manager Users

1. The user can navigate to "Users" to manage users.
2. The "User" navigation item will have a submenu to provide the user with the option to go directly to the Users main page or go directly to "Create New User Profile"
3. When no user profiles exist, a placeholder message will be displayed until users are added to the Savior system.
4. The "Create New" button will open the modal to create a new user profile.
5. Filters will be provide to view "All User Profiles" or "Disabled User Profiles". "All User Profiles" will be the default view.
6. A search utility will be provided to search for spedific users.
7. A table will list the user profiles according the filter or search criteria.

8. The name of the user will link to a modal to view details or modify the user profile.
9. An options menu will be displayed when hovered over. This options menu is for "Activated" users.
 - "Duplicate" will allow an administrator to duplicate the user profile and modify it to create a new user profile.
 - "Disable" will disable the user profile. This function will not allow the user to login to their Savior Desktop.
10. This options menu will is for "Disabled" users.
 - "Activate" will enable the user profile. This function will allow the user to login to their Savior Desktop.
 - "Delete" will remove the user profile. This function will not allow the user to login to their Savior Desktop.
11. When "Create New" is clicked, the user will be taken to the "Create User Profile" page
12. The user profile will be dependent on Active Directories. The user will type the last name to see the matching options.
13. The matching options from Active Directories.
14. Virtues will be added to user profiles. These Virtues will be made available to the user's Savior Desktop.
15. The placeholder message when no Virtues have been attached to the user profile.
16. The "Add a Virtue" button will open a modal to add virtues to the user profile.
17. The "Add a Virtue" modal will allow the user to add an existing Virtue "Image" to be associated with the user profile.
18. Select will contain all the existing virtues that have been created within the Savior system.
19. This will add the Virtue to the User's account.
20. The "Add Virtue" button will add the selected virtue to the user profile. If the "Add Another Virtue" option is not selected, the modal will close.
21. The "Cancel" button will close without saving or adding the virtue to the user profile.
22. A table will show a list of the virtues that will be attached to the user profile.
23. When hovering over the line item, an options menu is be displayed.
 - "Remove" will removed the virtue from the user profile.
24. This option will allow the user to create another user profile without leaving this page.
25. The "Create User Profile" button will add and activate the user profile. If the "Create Another User Profile" option is not selected, the page will be redirected to the "User Profile" list page.
26. The "Cancel" button will redirect to the "User Profile" list page without saving or adding the user profile.
